RE: Covid-19 precautions

While there have been no confirmed cases of Covid-19 in the Morgan County area, the schools are taking strict precautions to prevent transmission. As of yesterday, March 12, 2020, MSD of Martinsville made the decision it was in the best interest of the students, faculty and community to cancel school starting March 16, 2020 thru March 20, 2020, with spring break being the following week. We recommend that local daycare/preschools as well be closed March 16-March 29, returning March 30, 2020, barring any new developments.

At this time the Morgan County Health Department feels it is in the best interest of everyone to follow the school districts lead to protect our children and staff. I understand that this may be difficult for many parents/guardians as you rely on these services. We appreciate your cooperation and understanding during the time.

If you have any questions or concerns please contact the local health department at the number listed above.

Paul Broderick, DO
