**Ditch Updates**

*Spraying Quotes:*

Terry Brock, Morgan County Surveyor, stated that the Surveyor's Office requested quotes for spraying the banks of Lake Ditch and its tributaries for sprouting trees and woody weeds. They received one quote from Dalton for \$9,573. Mr. Brock stated that the rest of the quotes should be in by the end of the day. Brian Goss made a motion to authorize the Surveyor to choose the lowest quote as long as the quote is received by the end of the day. Motion seconded by Norman Voyles. Motion carried 3-0.

*Lake Ditch – Mill Creek:*

Mr. Brock stated that a property owner in the Eminence area is losing property to erosion because of a log jam outside the mouth of Lake Ditch. The recent flooding in the area has caused trees, cornstalks, and other debris to gather. Mr. Brock requested permission to contract someone to remove the log jams. Mr. Brock stated that it is an emergency situation because the property owner is losing ground. Don Adams made a motion to authorize the Surveyor to obtain three quotes for the removal of the log jam and to select the lowest quote. Motion seconded by Brian Goss. Motion carried 3-0.

*Sartor Ditch:*

Mr. Brock stated that the new culvert and rip rap is in place on Sartor Ditch and looks good. The disturbed ground has been seeded and the maintenance work is complete.

*Nutter Ditch:*

The ditch has been excavated but all the spoils have not been leveled. They are working with the contractor to get this completed.

**Stop Work Order**

Mr. Brock stated that a stop work order was issued for K&K Investments on S R 135 south of Morgantown. There are no erosion control measures and no permit has been issued. Dirt is going into the creek. The Surveyor's Office is working with the landowner to resolve the issue.
